

Karely Durán

UX/UI Designer & Frontend Developer · Figma → Production

www.karely.dev karelycode@gmail.com linkedin.com/in/karelyd-code github.com/karelycode

Durango, México · (+52) 618-164-22-73

PROFILE

UX/UI Designer with frontend development skills, specializing in user-centered digital products. I take designs from research and wireframes all the way to production with Next.js and Tailwind CSS, removing friction between design and development. Award-winning hackathon builder (Innovatec 2024, HackDgo 2024) with a strong focus on accessibility and inclusive design.

PROFESSIONAL EXPERIENCE

Fortune Acoustics Jan 2025 – Present

Community Manager & UX/UI Designer

Leading UX/UI and digital marketing efforts to drive brand growth and improve customer experience:

- Led the UX/UI redesign of the e-commerce, defining the design proposal delivered for external implementation
- Currently leading the full UX/UI redesign of a sister company's website, from research to Figma prototyping
- Designed strategic landing pages optimized for lead conversion
- Created digital ad campaigns with a user experience focus across social platforms

Clarify May 2024 – Nov 2024

UX/UI Designer & Project Lead

Led design and development of an award-winning AI mobile app for people with visual impairments:

- Designed fully accessible UI: voice feedback, directional vibrations, high-contrast interface
- Conducted usability testing and iterated based on user feedback
- Built interactive Figma prototypes for user validation sessions
- Trained and integrated AI models for real-time visual recognition
- Developed cross-platform app in Flutter — 1st place local, 3rd regional, honorable mention national at **Innovatec 2024**

HACK-ACISTI 2024 Oct 2024

Lead Organizer & UX Lead

- Designed the end-to-end participant journey map for a 30-team hackathon
- Created all sponsor and participant-facing visual materials with consistent UI language

ACISTI — Instituto Tecnológico de Durango 2024 – 2025

Treasurer & Secretary of Women's Affairs

- Served on the 2024–2025 board of the Computer Systems Engineers Association, managing finances and gender equity initiatives

EDUCATION

B.Eng. in Computer Systems Engineering 2020 – 2024

Instituto Tecnológico de Durango — Durango, México
